Professional Summary

Detail-oriented and driven Electrical and Electronics Engineering student with a strong self-built foundation in modern Full stack web development, specializing in React.js, Node.js, Express.js. Proficient in building responsive and dynamic web applications, integrating RESTful APIs, and applying best practices in UI/UX design. Passionate about technology and continuously expanding skills beyond core discipline. Eager to contribute to a forward-thinking development team and grow in a collaborative environment.

Education

Bachelor of Technology in Electrical and Electronics Engineering

Lakki Reddy Bali Reddy College Of Engineering Autonomous, Mylavaram Andhra Pradesh

2020 – 2024

Intermediate MPC

Chaitanya JR College Gannavaram, 2018 – 2020

Secondary School Certificate (S.S.C)

Zilla Parishad High School Gollanapalli, 2013 – 2018

Technical Skills

Front-End Technologies: JavaScript (ES6+), HTML5, CSS3

Frameworks & Libraries: React.js, Tailwind CSS, Bootstrap, Node.js

Backend Technologies: Core Java, Node.js, Express.js

Database Technologies: MongoDB (Mongoose), SQL/PL SQL (Basics)

Tools & Platforms: Git, GitHub, npm, npx, VS Code

Others: RESTful APIs, Responsive Web Design

Projects

Task Management Application

- Created a simple and efficient to-do list application using **React.js, CSS**.
- Developed a dynamic task manager with full CRUD functionality.
- Used **React hooks (useState)** for state management and persistent storage.
- Implemented features such as adding, deleting, and moving up and down the tasks.
- Stored tasks locally using localStorage for persistent data.

Weather App API

- **React, OpenWeatherMap API, Axios**
- Built a single-page application to display real-time weather data.
- Implemented API integration and conditional rendering for various data states.
- Applied reusable components for scalability.

Movie Search App

- Developed a responsive movie search application using **React.js**, styled with **Tailwind CSS** for a modern UI.
- Integrated the **OMDb API** using **Axios** to fetch and display real-time movie data based on user queries.
- Implemented features like dynamic search, loading states, and detailed modals for individual movie information.
- Utilized **React hooks (useState, useEffect)** for efficient state management and API interaction.

E-Commerce Product Page (Frontend Clone)

- Recreated a modern, responsive product page UI using **React.js** and **Tailwind CSS**, closely mimicking real-world e-commerce design.
- Implemented **add-to-cart** functionality with item count management and basic cart state using **React hooks**.
- Used **component-based architecture** to build reusable UI elements like product image carousel, buttons, and modals.
- Ensured mobile responsiveness and accessibility across devices using **Tailwind's utility-first approach**.

Portfolio Website

- Crating a portfolio website using **HTML, CSS & Java Script**
- Designed and deployed a personal portfolio showcasing projects and skills.

Soft Skills

- Analytical Thinking
- Effective Communication
- Self-Motivated & Eager Learner
- Problem-Solving
- Team Collaboration
- Time Management
- Adaptability

Declaration

I hereby declare that all the above-mentioned details are true to the best of my knowledge and belief.
